SECTION 01

Brand Foundation

Brand Purpose

Eze Perfumes exists to prove that smelling extraordinary and living ethically are not a tradeoff. In a fragrance market flooded with animal-derived ingredients, synthetic overload, and luxury markups, Eze offers a bold alternative: premium, long-lasting EDP perfumes made with vegan, cruelty-free ingredients — accessible to every Indian who refuses to compromise.

VISION

India's Most-Loved Vegan Fragrance

To become the default choice for the conscious, confident, and culture-forward Indian consumer.

MISSION

Democratize Ethical Luxury

Craft EDP-strength, long-lasting perfumes using vegan ingredients — accessible at honest prices, so every Indian can express identity without harming any creature.

Core Values

- **Ethical by Design** — Vegan. Cruelty-free. No compromises, ever.
- **Longevity as a Promise** — Full-day wear is not a feature; it's our standard.
- **Accessible Luxury** — Premium quality at prices that don't punish the middle class.
- **Proudly Indian** — Rooted in Indian culture, climate, and the diversity of its people.
- **Radical Transparency** — We tell you exactly what's in the bottle. Always.

Unique Selling Proposition

THE EZE USP

India's only EDP-strength, all-day-lasting vegan & cruelty-free perfume — crafted for the heat, humidity, and hustle of Indian life. No animal ingredients. No weak body mists. No markup for ethics.

Brand Positioning Statement

> *For conscious Indian consumers aged 18–44 who refuse to choose between smelling great and living ethically, Eze Perfumes delivers premium EDP fragrances that last a full Indian day — made with 100% vegan, cruelty-free ingredients at an accessible price.*

SECTION 03

Market & Competitor Analysis

Market Context

India's perfume market is projected to grow at a **23.7% CAGR from 2025–2030**. The vegan and clean fragrance segment is among the fastest-growing sub-categories, driven by the millennial and Gen Z demographic who view fragrance as identity and ethics simultaneously. The organized homegrown fragrance market now accounts for 30% of total homegrown sales — strong tailwinds for Eze.

BRAND	POSITION	PRICE RANGE	GAP VS. EZE
Naso Profumi	Niche artisan, attar-inspired	₹2,000–₹4,000	Targets luxury niche; Eze plays mass-accessible vegan
Bombay Perfumery	Cultural storytelling, premium DTC	₹1,500–₹3,500	No explicit vegan-first positioning
Lyla Blanc	Mass-market, affordable D2C	₹499–₹1,200	No ethical/vegan angle; EDT strength only

BRAND	POSITION	PRICE RANGE	GAP VS. EZE
The Body Shop / LUSH	Ethical, global, established	₹1,800–₹5,000	Not Indian-climate-specific; higher import price

Differentiation Opportunities

- Own the **"Vegan + Longevity"** intersection — no Indian brand communicates both forcefully
- **"Mumbai-weather proof"** framing — hyper-local durability claim competitors can't replicate
- **Price-ethics parity** — be the brand that proves ethics doesn't cost a premium
- **Community-first content** — build the "Eze Tribe" as an identity, not just a loyalty program

SECTION 04

Brand Identity System

Brand Personality

Witty & Self-Aware | Fiercely Ethical | Warmly Indian | Quietly Confident | Inclusively Bold

(Everyman). This creates magnetic tension: edgy values, warm delivery.

My ex said I was 'too intense.' Apparently they've never smelled our sillage.
